MINUTES OF THE LEHIGH PRIDE TEAM MAY 18, 2006

Meeting convened in the pottery Room of the Veterans park at 7:15 PM. Three members were present.

The standards for the new duplexes as proposed to Lee County BoCC were reviewed. A general conclusion was reached that these proposals would give duplex residents a better appearance to enjoy and bring the duplex standards up to the general standards of new homes in Lehigh Acres. At present duplexes have been omitted from the single family construction standards.

It has been difficult to find any action by Code Enforcement against violations for anything related to beautification. Occasionally a citation is issued for lack of a fence or the presence of an inoperable vehicle. Without enforcement any standards are void.

Members of this subcommittee and the general public are invited to the regular meeting of the Code Enforcement Subcommittee on June 12 at Veterans Park.

Respectfully submitted,  
John Miller
